Find Lasting Pain Relief with NeuroMed Electroanalgesia

About Us

At **Capitol Spine & Rehabilitation** and **Disc Center of America – Baton Rouge**, we are proud to offer **NeuroMed Electroanalgesia**, an innovative and non-invasive therapy designed to help you manage pain, reduce inflammation, and promote faster healing. If you're suffering from chronic pain, muscle tension, or recovering from an injury, this drug-free treatment may be the solution you've been looking for.

What is NeuroMed Electroanalgesia?

NeuroMed Electroanalgesia uses electrical impulses to stimulate the nerves, reducing pain and improving healing. These impulses block pain signals from reaching the brain and encourage your body to repair itself. This non-invasive therapy can target both nerve-related pain and musculoskeletal discomfort, helping to relieve tension, increase blood flow, and promote tissue regeneration.

Benefits of NeuroMed Electroanalgesia:

1. Effective Pain Relief:

• NeuroMed Electroanalgesia helps relieve chronic and acute pain by interrupting pain signals and promoting natural pain-blocking mechanisms within your body. Whether it's back pain, arthritis, or sciatica, this therapy can make a significant difference.

2. Reduces Inflammation:

• By stimulating circulation and promoting the body's natural anti-inflammatory responses, the therapy helps reduce swelling, which accelerates healing and recovery.

3. Drug-Free and Non-Invasive:

• This treatment offers a natural, side-effect-free solution for pain relief, so you won't have to worry about medication side effects or invasive procedures.

4. Improved Mobility:

• As the pain decreases and inflammation is reduced, you'll find it easier to move, stretch, and return to the activities you love.

5. Promotes Faster Healing:

• NeuroMed Electroanalgesia increases cellular activity, aiding tissue repair and recovery after injuries or surgery.

Conditions Treated with NeuroMed Electroanalgesia:

• **Chronic Back Pain**

• **Sciatica**

- **Arthritis**
- **Muscle Strains and Sprains**
- **Sports Injuries**
- **Neuropathy**
- **Post-Surgical Recovery**

What Patients Are Saying:

"After years of chronic back pain, I decided to try NeuroMed Electroanalgesia. I'm so glad I did! The relief has been incredible. I've seen a significant decrease in pain, and I'm finally able to move without discomfort. I feel more active and have more energy throughout the day." – Linda W.

"I had a knee injury that wasn't healing as quickly as I'd hoped. After a few sessions of NeuroMed Electroanalgesia, the swelling went down, and the pain was reduced. I'm now back on track with my rehabilitation." – John T.

Why Choose NeuroMed Electroanalgesia?

At **Capitol Spine & Rehabilitation** and **Disc Center of America – Baton Rouge**, we offer this effective therapy as part of our holistic approach to pain management. We focus on treating the source of your pain rather than masking the symptoms, so you can experience lasting relief and get back to your life.
